Dear Mr. Stearns:

The Department of Environmental Protection (DEP) has reviewed the June 23, 2022 document titled "Remedial Investigation Report, Risk Assessment Report and Cleanup Plan" for the property referenced above. The Report was prepared by Arcadis U.S., Inc. and submitted to DEP in accordance with the Land Recycling and Environmental Remediation Standards Act (Act 2), and it constitutes a Remedial Investigation Report, Risk Assessment Report, and Cleanup Plan as defined in Chapter 3.

DEP hereby approves the Report in accordance with the provisions of Act 2.

Please feel free to contact Sarah Pantelidou, P.G. by email at spantelido@pa.gov or by telephone at 484.250.5778 with any questions or if further clarification is needed regarding this matter.

If you intend to abandon the monitoring wells at your facility, please be advised that all abandoned wells shall be reported to Bureau of Topographic and Geologic Survey (BTGS) in the Pennsylvania Department of Conservation and Natural Resources, on forms required by BTGS. If available, the original driller's log should be included along with the details of the well abandonment procedure. A photograph should be taken of the site, and a reference map should be made to locate the abandoned well. We recommend that you identify the exact location by GPS. This is especially important for wells associated with contaminated sites. If a permit was issued for the well installation (e.g., by a local agency or County Health Department), please provide a copy of your BTGS submission to the issuing agency and to this office.
